General provisions.

InstaFinance Ltd., registration number 1811672, with the registered address at 4th Floor, Water's Edge Building, Meridian Plaza, Road Town, Tortola, British Virgin Islands, holding the license number SIBA/L/14/1082 (hereinafter referred to as the Company) and an individual or entity that has signed the present Agreement and has filled in the registration form (hereinafter referred to as the Customer), together referred to as Parties, entered into the present Agreement (hereinafter referred to as the Agreement). The present Agreement specifies the conditions under which the Company shall provide the services to the Customer related to conducting operations on financial markets.

The present Agreement specifies the conditions under which the Company shall provide the services to the Customer related to conducting operations on financial markets.

1. Definitions.

1. "Account history" – a full list of all completed transactions and non-trading operations conducted on a live account.
2. "Active account" is the Customer trading account, where quantity of the executed market lots (1 market lot is equivalent to 10 InstaForex lots) for the accounting period exceeds 0.2% of the average equity denominated in USD. For a USD 1,000 account the lot quantity is 2 market lots or 20 InstaForex lots. Upon occurrence of opposite trades only a half of the locked volume is counted for the quantity of executed lots.
3. "Adviser" – a trading account management algorithm in the form of a program based on MetaQuotes Language 4. This program sends requests and orders to a server using the Customer terminal.
4. "Arbitrage" – a trading strategy which uses "Arbitrage transactions".
5. "Arbitrage transaction" – an operation when an asset is bought on one market and at the same moment a matching asset is sold on a different market. This price difference is fixed on various exchange markets. It is easily observed, that the value of the portfolio remains almost unchanged regardless of the market movements (as the opposite trades offset each other). When the price difference changes to a positive side, the opposite arbitrage transaction of fixing profit is conducted. An arbitrage transaction is also a transaction conducted on one and the same market over a certain period of time on the condition that a considerable price gap between the quotes appears at the moment of trade opening or closing.
6. "Ask" – the highest price in the pair at which the Customer buys the currency.
7. "Balance" – aggregate financial result of all completed transactions and non-trading operations of a trading account.
8. "Base currency" – the first currency quoted in a currency pair, which the Customer can buy or sell at the price of the quote currency.
9. "Bid" - the smallest price in the currency pair exchange rate quote. The Customer sells at bid price.
10. "Bonus funds" – funds received by the Customer as part of bonus programs and contests, held by the Company.
11. "Equity" is the current account balance, calculated according to the formula: balance + floating profit - floating loss.
12. "Candlestick bar" is an element of the chart, which includes open and close prices, as well as maximum and minimum prices for a certain period of time (1 minute, 5 minutes, an hour, 24 hours, a week etc.).
13. "Customer" is a legal body or physical party that has accepted the present Agreement with the Dealer (the Company) in order to conduct trading operations under the terms of margin trading, and who has entered into a Customer terminal rental contract with InstaForex.
14. "Customer terminal" is a MetaTrader 4.xx software product, which lets the Customer get information on financial market trades in the real time mode (quantity defined by the Company), perform technical analysis of markets, conduct trades, set/change/cancel orders and receive messages from the Dealer and the Company. It can be freely accessed at the Company website (<https://www.instaforex.com/downloads/itc4setup.exe>).
15. "Customer log file" – a file created by the Customer terminal, which records all enquires and orders sent from Customer to the Dealer with a 1-second accuracy.
16. "Closed position" – the result of the second part of the completed closed transaction.
17. "Completed position" consists of two opposite trading operations of equal size (open and close position): buying followed by selling or selling followed by buying.
18. "Contract for difference" (CFD) – a trading operation item based on changes of the basis asset rate (i.e. the asset being the subject of the CFD), including stocks, futures, commodities, precious metals, stock index etc.
19. "Contract specification" – the main trading conditions (such as spread, lot size, minimal trade volume, changes in trade volume, initial margin, lock etc.) for each instrument. As of the date of wording the present Agreement, the information is available at <https://www.instaforex.com/en/specifications.php>
20. "Currency pair" is a unit of trade operation grounded on the price change of one currency versus another currency.
21. "Dealer" is:
 1. a company, which the Customer entered into agreement with, regulating the legislative base of conducting trade operations under the conditions of marginal trading.
 2. an employee of this company who deals with performing orders of the Customer, including orders' execution, stop out and margin calls (in the text of the present Agreement written lower-case letters).
22. "Developer" – MetaQuotes Software Corp., the developer of the trading platform.
23. "Disputable issue" is:
 1. a situation where the Customer assumes that the Dealer has violated one or more conditions of the present Agreement as a result of its activity or inactivity;
 2. a situation when the Dealer assumes that the Customer has violated one or more conditions of the present Agreement as a result of his activity or inactivity.

24. "Dormant and/or Inactive Account" shall mean any trading account where the holder of that trading account has not initiated any trading activity for a period of three (3) consecutive months and/or where the Company has not carried out any transactions in relation to the trading account by and/or on the instructions of the trading account holder and/or his/her authorized representative for a period of three (3) consecutive months.
25. "Enquiry" – the Customer instruction sent to the Dealer to obtain a currency quote. An enquiry does not imply the Customer's obligation to open a trade.
26. "Fast market" is a condition of the market which is characterized by sudden currency rate changes during a short period of time and often followed by price gaps. Usually it occurs right before and/or after one or a series of events:

 78. "Trading operation/trade" is purchasing/selling the instrument carried out by the Customer.

79. "Trading platform/terminal" – a set of software and technical facilities that supports receiving information on trading carried out on financial markets in real-time mode, conducts trading operations, takes into account mutual obligations between the Customer and the Dealer, and enforces observing conditions and restrictions. In simplified form for the purposes of the present Agreement consists of the "Server" and the "Customer terminal".
80. "Trading account" – unique personalized log of all operations recorded on the trading platform, where completed closed transactions, opened positions, non-market operations and orders are reflected.
81. The present Agreement between the Customer and the Company defines the terms of use for all services, which are offered by the Company and other authorized third-party service providers, including using the services with the purpose to conduct transactions on the Customer trading account.

2. Company services.

1. Definition of the Company services.

1. The Company services are all interactive programs or services offered by the Company, which make it possible for the Customer to:
 - get connected with the Company or with an authorized third-party service provider;
 - receive information and quotes from the Company or from an authorized third-party service provider;
 - conduct trades on financial markets through the Company trading terminal MetaTrader 4.0 (software program) which includes electronic data transfer that the Customer submits to the Company using a personal computer connected by modem or any other device to access the file transfer network assigned by the Company.
2. By signing the present Agreement the Customer acknowledges getting familiarized with the rules of communication and agrees that the Customer can give instructions only by telephone or the Customer trading terminal.
3. The services of the Company include information software set "MetaTrader 4.0", means of technical analysis and services of information provision by the third party, offered along with the services of the Company.
4. The Customer acknowledges that the Company reserves the right to change, add, rename or leave unaltered the Company services that are offered in terms of the present Agreement without any prior notice. The Customer also acknowledges that the Agreement is applicable to services, which can be changed, added or renamed in future in addition to the services which are provided to the Customer currently.
5. In relation to the Customer trades, the Company merely executes the Customer orders without providing trust management or recommendations. The Company executes the Customer enquires or orders regardless of a trade character, even if they are non-beneficial for the Customer.
6. But for the cases described in the present Agreement, the Company is not obliged to:
 - monitor and notify the Customer about the trade status;
 - close a Customer open position;
 - make attempts to execute the Customer order using the quotes, which differ from the quotes displayed in the "MetaTrader 4.0" trading platform.
7. The Company services exclude providing recommendations and information to motivate the Customer to conduct operations. In some cases, the Company reserves the right to give information, recommendations and advice to the Customer; in this case the Company bears no responsibility regarding the result and effectiveness of such actions. The Company reserves the right to cancel or close any Customer position in terms of conditions that are regulated by the present Agreement. All trades conducted by the Customer as a result of erroneous information or a mistake, are to be upheld by both parties, the Customer and the Company.

3. Basic principles.

1. Processing Customer orders.

1. For conducting trades the "Instant Execution" quoting mechanism is used.
2. Customer enquiries and orders are processed according to the following scheme:
 - the Customer makes an enquiry or an order, which correctness is checked, in the Customer terminal;
 - the Customer terminal forwards the enquiry or order to the server;
 - the server receives the Customer order and checks its correctness; then the trading terminal shows the message "request was accepted by server";
 - once the Customer enquiry or order has been processed, the server sends the result back to the Customer trading terminal;
 - provided that there is uninterrupted connection between the Customer terminal and the server, the Customer terminal receives the result of the enquiry or order execution result from the Dealer.
3. The Customer can attempt to cancel the earlier sent request (which is queued); nevertheless, the Company cannot guarantee the success of this attempt.
4. The time, required to execute an enquiry or an order, depends on the quality of connection between the Customer terminal and the Company server, as well as on the market conditions. Under the normal market conditions, it usually takes about 1-5 seconds to process an enquiry or an order. Amid the market conditions which differ from the normal ones, the processing time can be extended up to 10-15 seconds.
5. The Company server can decline the Customer order in cases as follows:
 - at the market opening a "No price" message is received, in case the Customer makes an enquiry before the first quote is imported in the trading platform;
 - the Customer does not have enough funds to open a new position;
 - market conditions are other than normal.

2. Trading operations.

1. Currency is sold at Bid price. Currency is bought at Ask price.

3. Minimal size of a trade.

1. For the trading accounts of Standard and Eurica types with the balance and/or funds in the amount of USD100,000.00 (one hundred thousand USD) or equivalent in other currency there can be a limitation of the minimal position size in the amount of 1 InstaForex lot (or USD1 per pip). For accounts of USD10,000.00 (ten thousand USD) or equivalent in other currency at the Company's discretion there can be a limitation of the minimal operation size of 0.1 InstaForex lot (or USD0.10 per 1 pip). For trading accounts with the balance of over USD10,000 and over USD100,000 the minimal size of InstaForex lot can be set proportionally to the balance at the Company's discretion.
2. If the sum total of the Customer opened positions exceeds the following sums in base currency, the Company reserves the right to impose limitations on the maximal leverage.
 - for the amounts over USD5,000,000 (five million) to 1:100;
 - for the amounts over USD20,000,000 (twenty million) to 1:50.

In some cases, when deals are opened through the ForexCopy system, the Company reserves the right to account for the total volume of opened trades on all accounts of followers of a ForexCopy trader in order to apply the aforementioned restrictions to these accounts. Along with that, the stop out level specified in clause 3.15 of the present Agreement can be changed by 50% for all followers of this trader.

The Company reserves the right to impose the above-mentioned restrictions on a selective basis.
3. For accounts with the balance over 1000 USD the leverage can be lowered from 1:1000 to 1:600.
4. Spreads and swaps.
 1. In case of no force major circumstances, the Company uses fixed spread, which is indicated on the Company official website. To become familiar with current spreads, please visit: <https://www.instaforex.com/en/specifications.php>
 2. Holding positions overnight. The swap is charged at 23:59:30 when keeping positions overnight. The swap is charged at a triple rate for all currency pairs, spot metals, #SPY, and #QQQ, remaining open from Wednesday to Thursday. A triple swap is also charged for keeping positions on CFDs on shares, as well as futures, on Friday. The swap size can vary on a daily basis according to the decision of the Company. Current swaps are available at <https://www.instaforex.com/en/specifications.php>.
5. Making amendments to trading conditions.
 1. The Company has the right to change margin requirements, spreads, the orders' executing mode and other trading conditions in correlation with national and international holidays, and shall notify the Customers 5 working days beforehand. In this case, all changes will be applicable to the already opened trades and new positions.
6. Closing CFD positions.
 1. If there are opened positions in a trading account on a day (or on the next day) of the economic statistics publication of the CFD issuing company, or any other event, which has a great impact on the share rate, the Company reserves the right to close a position using the last market quote at the trading session close. In this case, there follows a trade reopening at one of the market quotes during the first 5 minutes after the session opening.
7. Opening position.
 1. To open a position, an order should be sent from the Customer terminal to the Company server. The following order parameters are obligatory:
 - instrument;
 - position size (in lots).
 2. The list of instruments available for conducting trading operations using "Instant Execution" mode is published at the official website of the Company in the section "Trading Instruments" (<https://www.instaforex.com/en/specifications.php>).
8. The Company is obliged to notify the Customer 7 days prior to changing the list of the trading instruments.
 1. To open a Buy/Sell position the Customer should send an order using the Customer terminal.
 - To open a Buy position in the order window of the Customer terminal the Customer should click "Buy", whereat the order is sent to the server.
 - To open a Sell position in the order window of the Customer terminal a Sell tab should be clicked, whereat the order is sent to the server.
9. Executing Customer orders to open a position.
 1. If the size of free margin is enough to open a position, the position shall be opened. A new free margin level shall be adjusted automatically.
 2. In case the size of the free margin is insufficient to open a position, the position shall not be opened and a message about insufficient funds shall appear in the order window.
 3. If at the moment of the Customer order or enquiry execution by the server the quote changes, the server shall offer a new Bid/Ask price. In this case a new window "Requote" shall appear with new prices. If the Customer agrees to conduct the operation at newly offered quotes, the "OK" tab should be clicked in "Requote" window within 3 seconds.
 4. The Customer order to open a position is considered to be executed, and the position to be opened, when the corresponding server log file has been updated with a new record. Each new position shall receive a sequential ticket number.
10. Closing position.
 1. To close a position in the Customer terminal the Customer is obliged to indicate the following parameters:
 - the ticket of the position to be closed,
 - the size of the position.
 2. To close a position, the Customer should click the icon "Close position" in the order of the trading terminal.
11. Execution of the Customer orders to close a position.
 1. If at the moment of the Customer order/enquiry execution by the server, the quote has changed, the server shall offer a new Bid/Ask price. In this case there will appear a "Requote" window with new prices. Provided that the Customer agrees to conduct the deal at newly offered prices, the "OK" icon should be clicked within 3 seconds.

2. The Customer order to close a position is considered as completed, and the position as closed, when a corresponding record in the log file of the server appears.
12. Description of orders, available in InstaTrader trading terminal:
 1. Types of orders:
 - "Buy Stop" suggests opening a buy position at a higher price than the actual price at the moment of the order placing;
 - "Sell Stop" suggests a sell position opening at a lower price than the actual price at the moment of the order placing;
 - "Buy Limit"

price in line with the general Customer orders' queue. Forced close of a position is recorded in the server log file as a "stop out".

4. In case the conditions described in Clause 3.15.2 of the present Agreement are violated and the Customer has several open positions, the position with the highest floating loss will be closed first.

per month and/or close the trading account upon and/or after the period of three (3) consecutive months of inactivity.

5

4. A Customer agrees that personal information indicated at registration of a trading account can be used by the Company within the bounds of the AML (against money-laundering) policy.
5. The Customer agrees that the Company may request video verification depending on the method of deposit chosen by the Customer as a measure against money laundering.
6. The Customer is responsible for authenticity of the provided personal documents or their copies, and admits the right of the Company, if their originality is doubted, to apply to the law-enforcement authorities of the document issuing country for the authentication validation, in case the act of the document forgery was disclosed, the Customer will be brought to responsibility in accordance with the legislation of the document issuing country.

7. Risks.

This notification is missioned to reveal to the Customer the information regarding risks connected with conducting trading operations on the financial markets and to warn the Customer about possibility of financial losses related to these risks. In the present Agreement it is impossible to disclose all information about all potential risks due to sheer number of possible situations. The interpretation of the notions and terms used in this notification fully coincides with interpretation of those in the Agreement on processing and executing the Customer orders.

1. Leverage effect.
 1. Conducting trades under the conditions of "Margin Trading" a slight change of the instrument price rate can have an imposing impact on the Customer trading account balance due to the leverage effect. In case the market moves against the Customer position, the latter can suffer losses in the amount of the initial deposit and other additional funds deposited by the Customer in order to keep the positions open. The Customer acknowledges being fully responsible for considering all risks, using finance and choosing the corresponding trading strategy.
 2. It is highly recommended to maintain the Margin Level above 1000% and always set Stop Loss orders to limit possible losses.
2. High instrument volatility.
 1. Numerous instruments have considerable intraday price change ranges, implying a high possibility of trades ending in high profits or losses.
3. Technical risks.
 1. The Customer undertakes risks of financial losses caused by malfunctioning of informative, communication, electric and other systems involved.
 2. Conducting trading operations in the Customer terminal, the Customer undertakes the risks of financial losses caused by the following reasons:
 - a) hardware and software equipment errors, or poor quality of connection on the Customer side;
 - b) improper functioning of the Customer equipment;
 - c) wrong settings of the Customer terminal;
 - d) use of outdated Customer terminal;
 - e) the Customer unfamiliarity with the instructions provided in the "Customer Terminal Use Guide" and in the section "FAQ: Frequently Asked Questions".
 3. The Customer acknowledges that in case of conducting trading operations on telephone, during peak hours the possibility to reach the operator is weaker. The situation described can occur during fast market (for example, at key news releases).
4. Other than normal market conditions.
 1. The Customer realizes that under other than normal market conditions the time of the Customer order processing can be prolonged.
5. Trading platform.
 1. The Customer admits that there can be only one enquiry/order enqueued to be processed by the sever. The attempt to set any new order or enquiry shall be declined with the order window displaying the message "Trade flow is busy".
 2. The Customer acknowledges that the only reliable source of information regarding the streaming quotes is the main server, servicing the real Customers. The quotes databases in the Customer platform cannot be regarded as a credible source of information regarding the streaming quotes, as in case of unstable connection between the Customer platform and the server a part of quotes can fail to enter the Customer platform.
 3. The Customer admits that shutting down the window of placing/ modifying / cancelling an order, and shutting down the window of closing or opening positions does not cancel the enquiry or order, which has already been sent to the Dealer to be exercised.
 4. The Customer undertakes risks of unplanned trading operations conducted in cases of resending an order before the moment of receiving the information about the result of the Dealer's executing the prior order.
 5. The Customer realizes that simultaneous modification of the pending order level and Stop-Loss and/or Take-Profit, which were added right after the order had been executed, will only be processed when a Stop-Loss and/or Take-Profit level order is modified for the opened position of the order.
6. Communication.
 1. The Customer undertakes the risk of financial losses caused by late receiving or a failure to receive the server or Dealer message.
 2. The Customer realizes that non-coded information sent by email is not secured from unauthorized access.
 3. The Customer agrees that the Dealer reserves the right to delete the messages, which were not received by the Customer by internal Customer platform mail within three calendar days since the moment of the message uploading.
 4. The Customer bears full responsibility for confidentiality of the received from the Dealer information, and undertakes the risks of financial losses caused by unauthorized access of third parties to the Customer trading account.
7. The risks connected with activity of third parties involved in relationship between the Company and the Customer.

1. The Customer undertakes risks connected with disestablishment of payment systems. If the electronic payment system ceased to exist, the Company deducts funds from the Customer account in the amount deposited through this system.
